

Add colour and excitement to your juice and smoothie sales with **Fruititz**.

Stock Printed Foam Cups

Image

Add excitement to your business with the Dart Fruititz stock print design! This print captures the freshness and appeal of your drinks while enhancing the image of your business with its colourful and refreshing fruit design!

Insulation

With Dart foam cups, you can be assured the drinks you are serving maintain their freshness, quality taste, and texture for a longer period of time. The insulating properties of Fruititz printed cups help maintain the ideal temperature for serving smoothies, shakes, juices, and any cold drink. Customers will be more satisfied as their drink stays colder longer and retains its original quality! Satisfied customers mean repeat sales!

No Minimums

The Fruititz stock print is available without the minimums required for a custom print – easy ordering, without a big commitment! This allows you to order as much as you want, minimising inventory and increasing profits.

Industry Preferred Package

Due to their strength, quality, lid fit, and insulating properties, Dart foam cups are established as the preferred package for the juice and smoothie market. Multi-site national accounts and local juice bars alike rely on Dart foam cups to keep their drinks refreshing and their customers happy. Make Dart your choice as well with Fruititz!
